How to Wash Your Hands Properly — Information Transfer [8 marks]

Name: _____

Class: 2E

Date: _____

Questions 17–24. Read the text below and complete the table. Use **no more than three words and/or a number from the text** for each answer. (1 mark each)

How to Wash Your Hands Properly

Washing our hands properly is one of the best ways to stay healthy. It helps prevent the spread of germs. To wash correctly, follow some simple steps. First, wet your hands with clean, running water. Next, apply enough soap to cover all hand surfaces. Then, rub your hands together for at least 20 seconds. Wash the backs of your hands, between your fingers and under your nails. Finally, rinse well under clean water and dry them with a tissue or an air dryer. By washing properly, we can protect ourselves and others.

Adapted from Form 2 Module, p.70 suggested answer (teacher-requested classroom excerpt).

No.	Field	Answer
17	Water to wet hands	
18	Soap must cover	
19	Rub hands for	
20	Wash here (fingers)	
21	Wash here (nails)	
22	Water to rinse	
23	Dry hands with (one)	
24	Final benefit
